INFO

Matrade e-Learning

Matrade e-Learning Programme was designed to assist Malaysian SMEs to improve their export knowledge and skills. It also benefits students and Malaysian at large to increase their awareness in export knowledge. The benefits of e learning are free registration, wide range of topics, interactive learning, continuous learning, and it is convenient. The free online basic knowledge on export covers 4 main topics which are key to successful exporting, how to participate effectively in international trade fairs, understanding cross culture in international business and how to sell online. Additionally upon completion of the four topics, students can self-print the e-certificate.
