INFO

Price Catcher Mobile App

This mobile app has been developed and published by the Ministry of Domestic Trade, Cooperatives and Consumerism Malaysia or KPDNKK under the 1Pengguna program with the intention to help all Malaysian consumers out there to become better buyers of products and daily items while at the same time helping them to reduce their spending and cost of living. With the app, together with minimal internet access, users can check on demand the prices of the items and compare them in just a few touches. For more info, click [HERE](#).
